Autonomy & Responsibility/ Accountability

The concepts of responsibility, accountability and autonomy are intrinsically linked in determining the scope of nursing and midwifery practice. Nurses and midwives hold positions of responsibility and are, therefore, expected to be accountable for their practice. Responsibility and accountability are the cornerstones of professional nursing and midwifery practice, and are represented as a key principle in the Code of Professional Conduct and Ethics for Registered Nurses and Registered Midwives.

NMBI - NMBI Scope of Practice: Responsibility ...

You and your unit admit and assess patients, perform all the care during their treatment and take responsibility for discharging them. There is a clear link between accountability and autonomy: if you want to be autonomous, you need to take responsibility for your decisions and the results of your actions.
