5.0 out of 5 stars From Past to Present, the Growing Boundary of Neuroscience Reviewed in the United States on December 16, 2012 Author of Beyond Boundaries: The New Neuroscience of Connecting Brains with Machines, Miguel Nicolelis is the founder of Duke's Center for Neuroengineering.

Beyond Boundaries: The New Neuroscience of Connecting ...

Beyond Boundaries draws on Nicolelis's ground-breaking research with monkeys that he taught to control the movements of a robot located halfway around the globe by using brain signals alone. Nicolelis's work with primates has uncovered a new method for capturing brain function—by recording rich neuronal symphonies rather than the activity of single neurons.
