China S Urban Housing Revolution

country's distribution system of urban housing investment and partly from the distribution structure of rent subsidies in the urban sector. In 1977-78 after the fall of the "gang of four," the Chinese Government set out to solve the urban housing problem. Since 1979 investment in urban housing has increased dramatically, apparently

The Urban Housing Problem in China

China's urban housing reform completed the revolutionary transition from a state-sponsored welfare housing provisioning system to an open commodity housing market in this critical decade. With this major conversion of the housing provision system, the cost of commodity residential housing in China increased quickly.

In the first 20 years of China's economic revolution, begun under Deng Xiaoping in the late 1970s, China built some 6.5bn sq m (70bn sq ft) of new housing - the equivalent of more than 150 million...

Megacities: China's urban challenge - BBC News

Modern Urban Housing in China: 1840-2000 is an examination of the development of urban housing in China over the past 160 years. From China's modernization after the Opium Wars to the latest trends adopted after the market reforms of the 1980s, this book offers a broad overview of the developments in building construction and design. Extensively illustrated and written by a team of Chinese and Western experts, it is addressed to anyone interested in the modernization and architecture of China.

Modern Urban Housing in China: 1840-2000 - Harvard ...

In your book you argue that the divide between China's rural and urban populations is one of the central challenges facing the country and its economic model. But a lot of nations have rural-urban divides. Why do you think that China's is so destabilising? When I moved to China in January 1995, people were making about three times as much in the cities as those registered in rural areas.

How the urban-rural divide is undermining China's economic ...
