TractorData.com New Holland 6640 tractor information

Hi The pto on my 6640 has been switching off intermittently. I have found the wires on the outside of the grommet going into the casing are chafed. The insulation is off on one. To fix this properly I presume I would get a new wiring harness and install it. This would mean taking off the lift cover though, Is this a big job? The manual says the cab doesn't have to be moved.
