**Piaggio Fly 125 Fly 150**  
The Piaggio Fly's structure is safe and robust, made from a single tube with high strength pressed steel plates. The 12-inch wheels come with tyres with a generous section of 120/70 while the brake system consists of a 220-mm disc up front and a 140-mm drum at the rear. The engine, with CVT with torque server, functions on a single-sided swing arm.

I own a 'Piaggio fly 150' . it light ,very easy to ride . The main strenghts are it has long service intervals every 6,000 kms ,and run in serve 1,000 kms ,with a proper oil filter . what I really like about Piaggio is all italian , it has a vespa lx 150 engine , there no at all that I do not like the 'Piaggio Fly 150 2010' .

**Piaggio Fly 125 Reviews in motorbikes & 125s at Review Centre**  
PIAGGIO FLY 50 / 150 The Fly is Piaggio's offering to mainstream scooter buyers. You won't find the high end chrome, metal body construction and price tag of Vespa here, nor will you find the aggressive styling of a sports scooter. Rather, the Fly is an excellent blend of all the characteristics that make scooters a practical choice, and thus it has been popular with mainstream buyers.

Piaggio's proffilation of this bike: Light, compact and agile, the Fly 125 is equipped with a four-stroke 125cc LEADER engine. A protective shield and rigid steel tube frame ensure safe, precise riding, whilst a powerful, reliable front disc brake contributes to total rider confidence.

**2008 Piaggio Fly 125 specifications and pictures**  
Although the 12-inch wheels aren't the largest wheels available, Piaggio has worked on the chassis to give the Fly reassuring stability and agility to make riding a pleasure in and out of traffic. When you do arrive at your destination it's good to know you can throw your 'scooter' half-face lid under the seat along with the rain suit and walk away clutter free.
